**OUTSOURCING
ADVANTAGES**

OUTSOURCING ADVANTAGES

- Increased productivity, faster turnaround with higher business value, access to skilled expertise thereby increasing in-house efficiency and level of quality. Most importantly, the services will enable you to focus on core functions of the business.

COMPETITIVE BUSINESS ADVANTAGE

- One of the biggest advantages of outsourcing to India is cost savings (saving in current costs and overhead costs). The lower cost of operation, infrastructure & technology and labor makes it attractive to outsource. Since the service provider is responsible for managing the workforce for outsourced activities, you not only save on costs, but also have the ability to better manage your core functions.

COST SAVINGS

- Outsourcing to a country like India, which is on a different time zone, gives you the added advantage of getting work done 24x7 and faster. We would have already sent our deliverables to you when you come to work.

24*7 BUSINESS HOURS ADVANTAGE

- Outsourcing agencies, being specialized in their fields, would be better positioned and skilled at preparing the desired output, thus, leading to better risk management for you on such services. Also, the inherent risk mitigation advantages of outsourcing, such as better operational control, easier laying-off of workforce etc., will be available with you.

BETTER RISK MANAGEMENT

- Outsourcing gives businesses flexibility in staffing and manpower management. Outsourcing certain independent tasks, allows your business to maintain a financial flexibility when there is an uncertainty in demand. At a much lower cost, one can run the business in full throttle even during off season and holiday months.
